Door Furniture

About McCallum Australia

McCallum Australia has been manufacturing high quality hardware products for the Australian market since 1939.

Our products are designed and developed in Australia, made from the highest quality materials and processes to exceed the high demands of Australian Standards and the market.

McCallum Australia is the pre-eminent hinge manufacturer for Australia. Our products have been used in hundreds of thousands of projects across Australia – including some of the most prominent such as, The Sydney Opera House, New Parliament House Canberra, and Crown Casino.

McCallum's pioneered the extruded aluminium hinge that features aluminium pressed endcaps, keyed flanged nylon bearings and stainless-steel hinge pins. We have included these innovative design features in our popular heavy duty fast-fix hinge range.

Our range of products are used extensively throughout the Australian market and are sort after by tradespeople, specifiers and technicians for new projects, repairs, refurbishments, and retrofits.

McCallum Australia products are sought for their key attributes:

- Quality
- Reliability
- Technical innovation
- Value

We support this with a focus on strong customer support.

McCallum representatives and stockists would be pleased to discuss and offer advice regarding your hardware requirements.

Commercial Mortice Lock

The McCallum 10000 Series commercial mortice locks have been manufactured to meet the requirements of the Australian market. Using high quality materials to meet the durability and strength required for use in commercial and industrial building applications.

The 10000 series is a multi-functional lock that allows for simple switching between vestibule and combination locking functions by an external operation prior to installation.

SPECIFICATION

Lock Case:

Material high purity zinc alloy

Face Plate:

Stainless Steel 304 grade

Strike Plate:

Universal "T" Strike plate - Stainless Steel 304 grade

Backset:

Standard 60mm

Door Thickness:

32 - 50mm

Latchbolt:

Stainless Steel 15mm projection

Auxiliary bolt:

Stainless Steel activates dead latching.

Handing:

Reversable latchbolt (non-handed)

Spindle Hub:

Accepts 7.6 & 8mm spindles.

Cylinder:

Oval Brass outer Cylinder and inner Barrel

Cylinder retention:

Spring Steel Retaining Pin

Operation:

Multi-functional lock body allowing for simple switching from combination to vestibule locking functions.

Durability:

10000 Series Commercial Mortice Locks conform with level D8 (Durability) Australian Lock Standard (AS 4145.2-2008).

Security:

10000 Series Commercial Mortice Locks conform with level S5 (Physical Security) Australian Lock Standard (AS 4145.2-2008).

Fire Rated:

Successfully tested in accordance with Australian Lock Standard (AS 1905.1-2005).

Electric Strikes:

The 10000 Series Commercial Mortice Locks are compatible with most electric strikes.

Warranty:

10 Year mechanical

Finishes:

SSS: Satin Stainless Steel

BLK: Black
